FALCON™

The F-16 Fighter Simulation

2.2 Communications Version

What reviewers are saying about FALCON:

FALCON: "Just another flight simulator like a Ferrari is just another car." PC Resource, July '88.

"FALCON earns a rating of AAA+... The plus is for realism, so much so that one wonders where the TOP SECRET stamp is printed." Bob Liddil, Pico, March '88.

"The best air combat simulator ever." Scott Mace, Microcosm, Jan. '88.

"It's the best flight simulator yet put on a microcomputer... a must for any Mac owner..." John Dvorak, San Francisco Examiner.

When you climb into the cockpit of the F-16 Fighting Falcon, get set for the "flight of your life" as the powerful FALCON takes you streaking across the sky at Mach 2. Accurate weapons system, head-up-displays, cockpit controls, and overall flight characteristics make this the ultimate in simulations.

AND THE BEST JUST GOT BETTER!

Now you can challenge opponents in head-to-head combat over AppleTalk, modem, or direct computer link (Macintosh to Macintosh or Macintosh to IBM PC). Pit your skills against those of your friends. Find out who is the real "top gun"!

FEATURES:

- Option for head-to-head combat via AppleTalk, modem, or direct connect
- Enhanced military head-up-displays (HUDs) and weapons delivery systems
- Improved MiG dogfighting logic
- Realistic sounds and digitized airplane images
- Five skill levels (First Lieutenant to Colonel)
- Advanced electronics/radar systems
- Improved user control interface including mouse and joystick control
- Black Box flight recorder
- Autopilot that flies directly to ground target
- Four cockpit views
- Twelve exciting missions
- Awards and commendations
- Ground collision cue
- Digitized voice warning system
- Training mode
