LOVERS YOUNG
AND OLD.**

S I E R R A®

When you play The Incredible Toon Machine, you give life to cartoons.

You know how it is on Saturday mornings. Mice dropping anvils. Cats swallowing dynamite. Stuff like that. Well, now you have a chance to join the fun. Welcome to the addicting world of *The Incredible Toon Machine*. Inspired by Rube Goldberg, it's a world where elephants and dynamite, fish and cheese can be manipulated to solve fiendishly fun puzzles. Go ahead, warm up your computer, limber up your brain and prepare to be wowed, stumped and elated all at the same time when you play the game that's a cross between Saturday morning cartoons and a creative puzzle game.

- Play over 130 animated, fun-filled puzzles that will make you laugh, drive you crazy and keep you challenged.
- Put your creative genius to work by creating your own puzzles using the HomeToons options.
- Go one-on-one with your buddies with our new brain-to-brain feature.
- Solve the puzzles using over 75 intricate and animated parts.
- Enjoy wild cartoon sound effects and graphics. CD-ROM version features talking characters and fully orchestrated music.

Read the puzzle goal: Poke AI with a pin. Rummage through the parts available for this puzzle. Pull out the ones you want to use and build a solution. Several zillion combinations are possible, but you need one that works!

Now crank up your Toon Machine and hang on! See if your cartoon creation solves the puzzle. If so, your brain will give itself a high-five. If not, don't fret—try again.
