- Amazing 48-bit Color!
- 600x1200 dpi
- USB Interface
- Win 98/2000/ME/XP

Capture Memorable Moments

Features and Benefits

Superb Image Quality

48-bit internal color capability recognizes over 281 trillion colors. 48-bit scanners capture more detail in the shadow and highlight areas of an image than the 42-bit predecessors, so you'll get brighter yellows, richer reds, cooler blues, and everything between.

Image Sharing Made Easy

Sharing your creations and images with family and friends by email, through online photo services, via your web site or through colorful projects printed on your inkjet printer is made easy with the included software.

Easy to Use

Just press a OneTouch button to scan and send an image to the destination of your choice. While intelligent default button settings give perfect results on common scanning tasks, the OneTouch Preferences utility makes it simple to customize the buttons.

Reliability

Visioneer is known for high quality, easy to use scanning solutions and some of the highest customer satisfaction and repeat buyer rates in the industry.

Your family photos are priceless. Why keep them in a shoebox where they'll fade and yellow? With its 48-bit true color capability, the Visioneer OneTouch 5800 USB recognizes over 281 trillion different hues, capturing the finest nuance and detail from your images. Preserving and sharing treasured family photos digitally is quick and easy with the Visioneer OneTouch 5800 USB scanner.

Award-winning Software

ScanSoft PaperPort Deluxe

The world's best-selling document and image management application creates thumbnails of everything you scan allowing easy filing in color-coded folders.

ScanSoft TextBridge Pro OCR

Scan printed text into your word processor so you don't have to retype documents that you wish to edit.

MGI PhotoSuite III SE

The complete PC photography and Internet software lets you make greeting cards, calendars, slide shows, web pages and other projects to share your treasured photos with family and friends.

Capture Memorable Moments

48-bit Color • 600x1200 dpi

Scan

Scan documents, photographs, articles or 3D objects into ScanSoft PaperPort Deluxe software. PaperPort Deluxe keeps your images organized and has links to other applications so you can put your pictures to work easily.

Copy

Conveniently copy documents or get instant reprints of pictures with your photo quality inkjet printer.

Email

Automatically attach scanned documents and photographs to email messages using your MAPI compliant email software and ISP account. Button can be set to attach multiple images to one email.

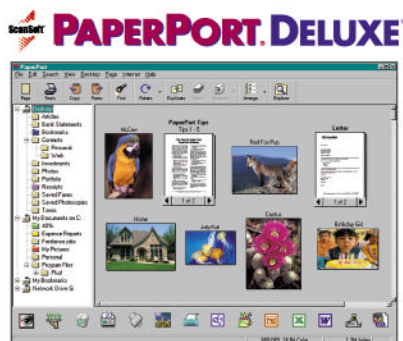

Image Management Made Easy

Manage all your scans with PaperPort Deluxe. Easily file your documents and photos in color-coded folders. PaperPort Deluxe works with most popular applications. Simply drag and drop a thumbnail image onto the LinkBar icon and your document is on its way to that application! The Linkbar makes it easy to share your treasured memories.

Have Fun With Your Photos

The included MGI PhotoSuite III SE software allows you to easily touch-up, transform, organize and share photos with family and friends. It's like a whole suite of photo applications that enable you to do just about anything you can imagine with your pictures. You can post your creations to your personal web site or email them to friends.
