Minimum Requirements

Motorola Phone Tools requires Windows® 2000, XP, or Vista.

For Motorola Phone Tools to operate properly, please verify that you have the following minimum requirements:

- 500 MHz processor or faster.
- 128MB of RAM.
- Local hard drive with 120 MB free space.
- Internet Explorer 6.0 or later
- A USB cable or a Bluetooth dongle
- One available USB port, if using a cable connection, or an active Bluetooth adapter.
- Mobile phone or Device that is compatible with **Motorola Phone Tools**.
(Please contact your wireless service provider for details.)

Optional:

- High speed data networks included in the service plan with your mobile phone operator (for high speed e-mail and Internet use on the mobile phone network); data service is a network and subscription feature that may not be available in all areas.

Before Installing Motorola Phone Tools

Screen Shots

The screen shots in this guide correspond to the use of **Motorola Phone Tools** under a Windows XP environment. When running the application in other Windows operating systems, the aspect of the screens may change. This will not impair the software's functionality.

The image you see may be different depending on the phone models.

Online Help

Motorola Phone Tools has a context sensitive online help that can be accessed by clicking the **Help** option or by pressing **F1** on your keyboard. Complete information on how to use **Motorola Phone Tools** can be found in the help files.

Technical Support

Technical support information for **Motorola Phone Tools** is available on the Avanquest Software Web site:

<http://www.bvrp.com/customers/motorola/>

To obtain telephone numbers and e-mail addresses, click on Contact us at the top of the Web page.

Installing Motorola Phone Tools

Important!

Install the software prior to connecting the device to your PC.

Starting the installation

To install **Motorola Phone Tools** on your hard drive, insert the Installation CD-ROM in the appropriate drive. The installation process will start automatically.

Should the installation program fail to start automatically, execute the following instructions:

- Select the CD-ROM drive. Double-click on the **Boot** directory and double-click on **Start**.

or

- From the start menu, select the **Run** command, type **D:\boot\start.exe** (where D: is the CD-ROM drive) and click the **Ok** button.

Installation wizard

An installation wizard will guide you through the installation process, prompting for information where needed.

During the installation procedure, the program files are copied to your hard disk and a program group is created. This group contains the icons of the **Motorola Phone Tools** application and will be accessible from the **Start** menu.

After installation, the online registration wizard is automatically launched (see *Online Registration*, page 8). To receive free upgrades and technical assistance, it is highly recommended to complete the online registration.

Depending on the operating system, once the installation process is complete, the installation wizard will prompt you to restart your computer for your system changes to take effect.

The **Add a shortcut to the desktop to start the program** is checked by default. Uncheck the box if you prefer to start **Motorola Phone Tools** from the **Start** menu. If not, the following icon will be added to the desktop as a shortcut..

Mobile Device Installation and Configuration

Important!

*Please do not connect your mobile or your mobile device to your PC until instructed to do so by the **Motorola Phone Tools** software installation wizard.*

1. Select **Default profile** or click **New** to create a new profile.

2. First, make sure your phone is turned on and, before connecting it, select the connection type you will use to connect your phone to your PC.

3. Click on **Next**.

4. Connect your phone to your PC.
Your phone will be detected and setup will begin automatically. The application will then be launched at the end of the installation process.
5. Your phone will automatically be detected the next time you select this profile.

Online Registration

Register online to receive Avanquest Software technical support assistance and free upgrades. The online registration wizard is automatically launched at the end of the installation process.

Important!

To ensure an automatic Internet connection, check that your Internet access is available and properly set up.

1. You may either choose to:

- Register immediately by clicking the **OK** button and follow the online registration instructions.

or

- Register later by clicking the **Register later...** button.

2. The Wizard displays a final window confirming that the installation is complete.

- The **Automatically run Motorola Phone Tools** box is checked by default. Uncheck the box if you prefer to start the application later.
- The **Add a shortcut to the desktop to start the program** box is checked by default. Uncheck the box if you prefer to start Motorola Phone Tools from the **Start** menu.

3. To close the **Motorola Phone Tools** Installation Wizard, click the **Finish** button.

*If online registration could not be completed during the installation, you can also register at any other time using **Menu > Options > Online registration...***

Uninstalling Motorola Phone Tools

1. Click the **Start** menu and select **Control Panel**.
The ***Control Panel*** window is displayed.
2. In the list, double-click the **Add or Remove programs** option.
3. Highlight the **Motorola Phone Tools** program group and, depending on your Operating System, click the **Modify/Delete** or **Change/Remove** button.
4. The uninstallation procedure starts and the program is removed from your computer.

Important!

*This procedure does not uninstall the "Motorola Driver Installation." To do so, you need to manually uninstall this program from the **Start menu > Control Panel > Add or Remove programs** option.*

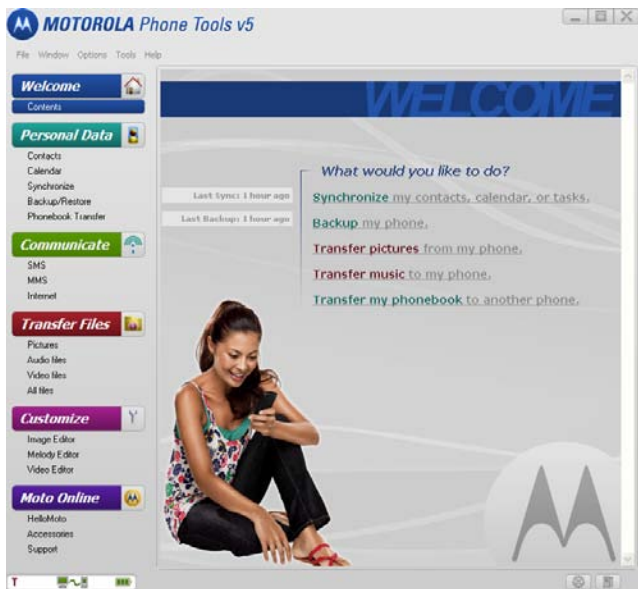

Motorola Phone Tools Main Window

With **Motorola Phone Tools**, you can share the information contained on your PC with your mobile phone. When your mobile phone is connected to your computer, you can perform the following operations:

- Manage and synchronize your phonebooks and calendars
- Send and receive SMS
- Create and send MMS*
- Launch an internet connection*
- Transfer files from your phone to PC and vice versa
- Create or modify images, melody, video* and send it to your phone

***Note:**

*Some **Motorola Phone Tools** features might not be available with your phone or device.*

Motorola Phone Tools Function Panel

The function panel on the left of the interface is divided into five main categories:

- Personal Data
- Communicate
- Transfer Files
- Customize
- Moto Online

Modify, synchronize, backup, restore your contacts and calendar information, and transfer your phonebook to and from your PC and Mobile phone.

Create and send SMS and MMS.
Create and manage Internet connection.

Transfer picture, audio, and video files.

Modify and edit images, sound, or videos.
